

The Wainwright Star

MOTOR VEHICLES ACT WILL BE ENFORCED

It has been drawn to the attention of the citizens by several persons, that the diagram was in violation of the Motor Vehicle Act, being violated by those who evidently do not know the articles of the act.

One thing that can be noticed is that many cars are to be seen on the evenings with only one light burning, also many motorists run through the town without even troubling to put even one light on.

The following will show that this is contrary to the regulations of the act.

"Every motor vehicle shall carry during the period from one hour after sunset to one hour before sunrise at least two lighted lamps, one on each side, showing white lights visible at least two hundred feet in the direction which the motor vehicle is proceeding or to be used, if not in motion, and upon each of such lights shall be plainly visible when such lamps are lighted the license number of said motor vehicle."

Among other articles: Every chauffeur must have a license to run his car, and when granted the license he is furnished with a metal badge which must be displayed in a prominent place. No chauffeur's license is granted to persons under 18 years of age.

No male person under 16 years of age or female person under 18 years of age shall drive a motor vehicle upon any public highway.

Another section regarding regulations for passing a person driving a team of horses on the highway provides that any person driving, leading or riding a horse or horses may direct the autoist to the left of the road and make him stop and close the engine down until such time as may be reasonable to allow such horse or animal to pass. The motor driver can also be called upon to assist in getting the animal or animals past the car.

The act provides penalties for the infraction of any of the sections and police officers have power to stop a motor driver at any time and make him conform with the regulations of the act. The act was put in force to safeguard the public and it should be the duty of every motorist to abide by its regulations. Accidents can be prevented if care is taken.

R. AYKROYD WILL CUT LARGE ACREAGE OF WHEAT

One of the most progressive and thorough farmers in this district is Mr. R. Aykroyd. He has always been able to have just a little better average yield in grain than any of the other men engaged in farming. People say that he is just lucky, but he says "crops can always be raised in this district it is only a question of the difference between good farming and bad farming."

This year in spite of difficulties and adverse weather conditions, Mr. Aykroyd will have a good crop of grain. His grain has been touched by bad weather, lowering the yield slightly, but by far the majority is good. Cutting started on his farm some time ago and this week will see the finish of all the wheat cutting and some of the other grain. He has somewhere around 1200 acres under crop this year.

BASEBALL GAME

A baseball match is scheduled for Thursday evening between the married men and the single men at the school grounds at 8:30 p.m. Teams will be picked out at the grounds so everybody be on hand and make the game a whirlwind. It is said that the young bucks have the idea that they can make short work of the bachelors.

FOOT EXPERT COMING TO A. C. ARMSTRONG'S

Dr. Scholl of Chicago, foot expert will visit Armstrong's store on Tuesday, September 12th. Dr. Scholl will prescribe for any trouble that you may have. He has travelled very extensively and is an authority on foot troubles. Information can be had in a free booklet at Armstrong's store. Call and get one. It will pay you.

Mr. A. Murray will entertain the Ladies' Institute on September 11th.

Beef Prices In 'Peg Scandle' Asserts Official

Winnipeg, Sept. 3.—A federal government official in Winnipeg today asserts that beef prices in Winnipeg are an infernal outrage. All the people are protesting in light second grade steers and they are being made to pay prices for it which must be netting a tremendous profit to somebody. None of that stuff should cost the home wife more than 20 cents a pound. Pump steak is 30 cents a pound, round steak is 30 cents, rolled roast 35 cents, sirloin is 35 cents and porterhouse 38 cents and 40 cents. "I don't know who is to blame," he added "but there is a scandalous racket somewhere, and there ought to be an investigation which will let the light of day in on this whole question." The chief cattle supply for Winnipeg market today comes from Alberta and parts of Saskatchewan. The remarks provoked a sensation. Calgary Herald.

The district has been fortunate in not having any serious accidents as yet. It is hoped that the record this year will ensure the record being kept.

Car owners are warned to conform to regulations, otherwise they will have no one to blame but themselves if they are unfortunate enough to be brought up before the courts of law.

that sown later, and if weather conditions are favorable, he will have some. A number one oats, which will go around forty bushels to the acre. He also has fifty acres in barley which has turned out exceptionally good.

Mr. Aykroyd does not confine his activities to grain raising alone and has been experimenting with different other lines of farm products. It will probably surprise many to learn that this year he will have a crop of genuine real apples. They have done well this year, the first season they bore fruit, and he informs the Star that in a few days they will be able to enjoy apple sauce grown on their own farm.

British Capture For Month of August 57,318 German Prisoners--- 1,283 Officers

HOT ON HEELS OF GERMANS

Enemy Being Swept Back To Old Hindenburg Line--- Advance Four Miles Tuesday

The following figures show the activity of the British and Canadian armies during the past month. In territory they have in some places gone farther than the old line which was established before the first big German offensive. The capture of Bapaume and Peronne brings the allies up to within a short distance of the Hindenburg line from which the Germans made their big offensive. The allies now occupy the line from Bapaume, Comblis, Peronne and nearly to Ham.

"Field Marshal Haig reports that in the month of August 57,318 German prisoners, including 1,283 officers, were captured by the British in France. In the same period the British have taken 657 guns, including over 150 heavy. Over 5,550 machine guns and over 1,000 trench mortars have been counted. Among the other captures were three trains, nine locomotives, numerous complete ammunition and engineer dumps, and many hundreds of thousands of pounds of gun and trench mortar ammunition, as well as small arms ammunition and immense quantities of war material of every description.

Tuesday, Sept. 3.—The Allied forces on the western front have taken a total of 128,302 prisoners since July 15. It was announced in an official statement. In the same period 2,666 guns, 1,734 mine throwers and 13,783 machine guns were captured. On the French front 75,000 prisoners and 200 guns had been captured by the French since July 15. It is announced.

The text of the official statement reads: In the course of their offensive from July 15 to August 3 the armies of the Allies have taken 128,302 prisoners, including 2,674 officers, and have captured 2,666 guns, 1,734 mine throwers, 13,783 machine guns, 1,000 trench mortars, 3 locomotives, 3 trains, 9 complete munitions dumps, supplies and materials of all kinds.

September 3.—In heavy fighting last night beyond the Drocourt-Queant line the British are reported to have made further progress on a front of 1,000 yards.

The villages of Sandoumont and Rucourt, more than a mile and a half beyond Drocourt, the capture of which was announced last night, are reported to have been taken today.

The village of Etain, two miles north of Drocourt, fell late yesterday afternoon. (Line of the British) captured the village of Villers-le-Caignourt. These captures were effected after a most bitter fight.

LONDON, Sept. 3.—The capture of the town of Queant, the southern support of the famous German switch line before Cambrai and Douai is announced in an official message from Field Marshal Haig today.

Along this line the enemy was heavily defeated in his prepared defense and is retreating on virtually the whole battlefield.

The British forces are reported to have entered the towns of Prouville, Dougnies and Bertincourt. In storming the Drocourt-Queant line the Canadians assisted the English troops and carried everything before them.

More than 2,000 prisoners were taken by the British Tuesday. In their push beyond the Drocourt-Queant line the British have advanced to a point just to the west of Brinay, 2 1/2 miles northeast of Queant and east of Queant.

In Flanders the British have also advanced 2 miles southeast of Kemmel.

TURN IN BAND INSTRUMENTS

Members of the old band who still have instruments and music are asked to turn them in to E. L. Cork this week. A large quantity of music is still out and unless the parts are all turned in a loss will be sustained by rendering most of the music useless.

ELITE THEATRE WILL HAVE BIG FEATURE FILMS

The Elite theatre has gone back to their regular schedule of shows, and are open every evening, shows commencing at 8 o'clock. The management of the theatre announce that they have made arrangements for securing the famous Regal film service, which includes such well known producers as Metro, Triangle, and other prominent companies. The management will be able to give their patrons the best program this season, that money can buy.

White Collars Fussey Dresses Are Barred

The "Hardtime" dance that is to be given by the Wainwright Band will take place in the Elite theatre on Wednesday next, September 11, and is creating considerable interest. The band committees are working hard to make it a success and will aim to give everybody the best time of their lives.

The older people are cordially invited to attend and every effort will be made to give them a big time. The fashionable square dance will be on the program and with a band manager of such experience as W. S. Goulet, in charge, there will be no excuse for having a dull moment.

Luncheon will be served by the E. O. D. E. and will be up to their usual high standard of excellence. A five piece orchestra has been engaged and the music will be all that can be desired. The band will also play for several dances, and will parade on the street in the evening before the dance opens.

This will be a hard time dance in every feature and no one should appear with a white collar or tussy clothes as the committee are likely to tear on a little time if you appear too prosperous.

Dance will open at ten o'clock.

WAINWRIGHT SCHOOLS WERE OFFICIALLY OPENED TUESDAY

On Tuesday morning at ten o'clock the Wainwright schools were formally opened by the chairman of the school board. A good attendance of pupils was present and the program was very successfully carried out.

After the pupils had all assembled in the school the chairman, V. E. Graham, and members of the board, Dr. Little and F. E. Fraser, spoke a few words regarding the coming school term. Rev. N. E. Priestley was also called upon to give a little talk.

After the program of speeches was finished the pupils filed out the school and were lined up in a right angle by Drill Master M. Pawling.

The ceremony of inlarding the British flag, which has been a part of the ceremonies on school opening for several, was then in order.

MYSTERIOUS GIRL CAPTURED BY POLICE

The young lady who created some excitement here last week by running off with a team of horses from the Alberta lively barn and also appropriating various articles from every house she happened to stop at, has been taken in charge by the Alberta police. She was taken at Yoho.

Her little journey was very exciting, at least to all the people to whom she paid a visit. One lady living on a farm about two miles from a town, who took pity on her, after hearing a hard luck story about having to walk several miles, volunteered to go to a neighbors to get a team to drive to the station. The girl had the beneficent returned the poor girl had looked over the assortment of household things and after picking up a watch and other small articles, he it before the kind-hearted owner had returned. Her list of petty thefts amounted to considerable and the police were able to return nearly all the stolen articles. The girl had evidently been associated with crime before and at one time had spent considerable time as a government ward in the Neglected Children's home, Edmonton.

She has every symptom of being a victim and will likely be taken by some institution under whose care she will probably be cured of her rather dangerous habits. She is only seventeen years of age.

If you are going to make a Christmas list to some of your boys in the trenches in France, it should be done right away. The government standard mailing boxes can be obtained at Washburn's hardware store. They come in two sizes.

Mr. Culley of the Wainwright Bakery has made some improvements in his store. A new set of shelves have been erected and more space will be given to his grocery trade. He is also having a well drilled at the rear of his property.

E. L. Cork is conducting a popular contest in his store. He is offering \$250 in prizes. Contests are given with each purchase entitling the customer to one vote.

Ira E. McLeod, telegraph manager C. P. R. Telegraphs, Saskatoon, is spending his vacation with his brothers, Postmaster and F. E. McLeod.

are taught to honor the flag under which they enjoy a freedom that is not to be equalled. The flag should mean more to the Canadian now than it has ever done, as the freedom we now enjoy is bought and paid for by the blood of many a Canadian lad.

The attendance at the school here will probably be greater this year than ever, as many pupils from the district are taking the high school courses. The primary department is also well filled, and on the opening day fifty-six were ones' marched in line. The repairs for the heating system which were undertaken during the holidays are nearly completed. No trouble should be met with during the coming winter from the cold and a big saving will also be made in the amount of fuel consumed.

Town Cows Enjoy Feed of Cabbage Who Lifted Porker and Chickens?

"It just like to know whose cow did that?" was the remark made by several irate citizens when they viewed the remains of their once fine cabbage patch. It presented a sorry looking appearance after the cow got through with it.

Who Lifted Porker and Chickens?

It is against the town bylaw to let cattle run at large and the authorities should take action. Burglars are now evidently classifying pigs to be as valuable as gold, as last week a nice porker was neatly lifted from a pen of a "greater production display" on town. Pigs were not the only thing either, as chickens were missed by several of our town poultry fanciers. The town sleuth has a "clue" and hopes are high that the criminal will soon be run to earth.

EGG PROPHECIES

END OF WAR.

Birmingham, Ala.—Due to the
white paper shortage, a message has
been sent to the people of Dora, Ala.,
on a plain ordinary yard egg, the mes-
sage being "Mrs. Joe Fore's little
brown hen. Appearing in raised let-
ters on the egg is the inscription,
"War will end some time in September.
In God we trust." There also
is a likeness of the Kaiser, an Amer-
ican soldier and an anchor. Mrs.
Fore doesn't know what these indi-
cate, and she remains silent. At
least 5000 persons of this vicinity
have seen the egg.

AUTOISTS ARE
WARNED

Accidents due to carelessness in the
handling of motor cars are of fre-
quent occurrence in Alberta. Nearly
every newspaper we pick up re-
cords some serious accident that has
happened. Drivers who are so self-
ish as to care nothing for the pedes-
trian and run recklessly through the
streets should be caught up and dealt
with according to the law. The Man-
itron reports on which we base our pre-
sent makes it compulsory to use every
precaution to safeguard the public.
One would think that there are very
few automobile drivers who were ac-
quainted with the provisions of the act
if we were to judge by their actions.
One of the most dangerous prac-
tices is running through the streets
without the lights being turned on.
A car could come around a corner
suddenly and woe to the unlucky pe-
destrian who happened to be crossing
the street.

The authorities have been very leni-
ent in overlooking minor infractions
of the act, but it is plainly their duty
to use every effort in making auto
owners conform with the law as it
will certainly minimize the danger of
accidents.

CROP SITUATION IN BRITAIN

Drought and Labor Shortage Add to
Difficulties of British Farmers

The following cable from the Brit-
ish Ministry of Food was received by
the Canada Food Board, just before
the conference of the Allied Food
Controllers.

"British agriculturists have been
seriously concerned about drought
which has checked the growth of
wheat here for six weeks, particu-
larly on light soil. Barley and oats
have also suffered and even root
crops, and even potatoes have been
retarded by cold weather and lack
of rain. Luckily the spell of unfa-
vorable weather now has broken and
rain is plentiful, but nevertheless it
looks as if the early optimism about
possibilities of the wheat crop in the
United Kingdom will have to be mod-
ified, owing to the difficulties of new-
ly broken ground and lack of labor.
It is true that women and children
are being rapidly recruited for the
forthcoming harvest, but even with
the help of urban holiday workers and
German prisoners, farmers here are
skeptical whether they will be able
to get in that which they have raised.
"Owing to early frosts and insect
attacks on fruit the food controller is
now also battling with an utterly
unforeseen shortage of jam for our
armies and civilian population.
"There is still a shortage of cheese
and lard has just been formally ra-
tioned.
"Hogs, too, have not been raised

as rapidly on this side of the Atlan-
tic as was hoped, owing to the ab-
normally high prices demanded for
breeding sows and weanling pigs.
Such is the situation despite the great
outburst of municipal enterprise in
connection with hog raising.
"Generally the food situation in
the United Kingdom is improved, but
the season of anxiety is not yet over."

SPECULATORS TAKE NOTICE

The Canada Food Board has warned
dealers in apples and potatoes that
any action that may be necessary to
check speculation in this year's crop
of these products.

"In negotiating for the purchase or
sale of apples, potatoes or other roots,
due consideration should be given to
the possibility of some action being
taken by this board," the statement
adds.

World News

D. A. Thompson, of Jarow is list-
ed among the killed in action.

London guarantees of the Chan-
tawqua that was held there some
time ago have to make up a deficit
of \$147.

Between four and five thousand of
London, (England) policemen have
gone on strike this week. They are
after higher wages.

The peasants of Ukraine are re-
ported to be in a revolt against
the Germans and Austrian rule. Al-
ready conflicts have taken place.

The world's series baseball will op-
en in Chicago on Sept. 4th. Ten per
cent of the proceeds will be donated
to charity.

A sturgeon 8ft. 3 inches long and
weighing 240 pounds was caught on
a line near Arrowhead. B. C. Three
men hauled the fish ashore while an-
other killed it with rifle bullets.

"The German army and nation now
face dark hours. May God protect
the fatherland," concludes an article
by General von Ardenne in a prom-
inent German newspaper.

The total number of persons, men
and women, who signed the registra-
tion cards is well over five million.
The number for Alberta is male,
180,885; female 136,517.

The Governor General of Canada,
the Duke of Devonshire is at present
touring in the west. He will look
over crop conditions in the prairie
provinces.

Charley Spencer, locomotive engi-
neer is credited with having with the
aid of his fireman, stolen a train from
the German lines on the French front
and bringing it safely to the British
lines, with German soldiers looking
on, unaware, until too late of what
was happening. The train was load-
ed with large calibre shells and other
munitions.

Fire started in the oil tanker, Lake
Manitoba at the wharf of the Impe-
rial Oil Co., Montreal, and did \$1,000,
000 damage. 1500 tons of crude oil
was lost, and the ship a total loss.
J. F. Boyce has been appointed
registrar of the department of Edu-
cation and will take up his duties
shortly.

CAPT. GEO. L. HUDSON, M.P.P.

Member for Wainwright constituency, in provincial government, who
enlisted in the 4th Canadians, in May 1915. He left for overseas in the fol-
lowing June with a commission as lieutenant. He was later given the
commission of captain in France. According to word received here he is
actively engaged in the present offensive with the Canadians and has given
a splendid account of himself.

NOBLE'S CROP WORTH \$1,000,000

Lethbridge Herald—Harvest on the
C. S. Noble, holdings at Nohelhof,
Barons and the Cameron ranch north-
east of the city are getting under way
and prospects are bright for a very
fair crop. With 25,000 acres under
cultivation of which 13,000 have been
summer-fallowed this year Mr. Noble
is expecting a return from his year's
endeavors which will run round the
\$1,000,000 mark, thus putting him in the
lead among the farmers of the provin-
ce. Had the crop been normal his
total returns would have climbed
close to the half million mark this
year, but in spite of the partial reverse
Mr. Noble is quite optimistic and his
faith in the country has never been
shaken.

"We will have a larger area under
crop next year," says Mr. Noble to
an interviewer on Thursday.
"We are putting in 5,000 acres of
winter rye this fall for a crop."

Mr. Noble is actively engaged in
personally superintending the work
on the various farms. Just now
harvest is his chief activity but im-
mediately this is out of the way work
on preparing more land for increased
production next year will be under-
taken.

Butchers in Birmingham, England
have undertaken to buy hogs back
after the housewife has made full use
of them, paying the customer half
of the proceeds of their disposal. They
are used for the extraction of gly-
cerine and for the manufacture of
phosphate for fertilizer and a val-
uable pig and poultry food.

FORMER DIRECTOR OF FAIR BOARD DIED THURSDAY

William Robinson, of Vermilion, was prominent among Showmen Breeders.

William Robinson, of Vermilion, a former director of the exhibition association, and a cattle breeder of considerable prominence in northern Alberta, died at the Alexandra hospital Thursday afternoon. Deceased succumbed to septic poisoning after making a brave fight against it for several weeks. He was forty-two years of age.

Always an interested exhibitor at the summer fair as well as the spring show, Mr. Robinson displayed at all times an intense desire to further the success of these shows. He was particularly prominent in the Alberta Cattle Breeders' association, being a director of this organization.

Mr. Robinson had a farm at Vermilion, where he has lived for the past nine years. His live stock specialty was shorthorn cattle, and with these he won enviable laurels in this city.

At the spring show he sold ten bulls which brought a total of \$2,600, while his exhibits were also featured in the prize awards. His son Lyle won good standing in the calf feeding competition at the spring show.

Mr. Robinson made several good sales of bulls at the 1916 spring show. He leaves a widow and one son, Lyle. A brother, J. H. Robinson, is at Taber, Alberta, while two sisters, Mrs. A. York of Montreal, and Mrs. Joseph Mattinson, Montreal, also survive him.

The funeral was held last Saturday from the Presbyterian church at Vermilion.—Edmonton Journal.

COLONIZING BRITISH COLUMBIA DISTRICTS

During the present year more colonists have gone into Central British Columbia, along the line of the Grand Trunk Pacific, than has been the case for a number of years back. The settlers going into this country are staple and are taking up substantial areas of land, mostly for mixed farming, and many are coming in from the United States. It is expected that some time this coming fall two land settlement areas, situated close to this railway line will be opened up by the Provincial Government and settlers will have the privilege of purchasing land within these areas at a small cost per acre.

Government agents will be on the ground to locate the settler and afford him such assistance as will be beneficial.

A FEW REASONS WHY COTTONS ARE SCARCE

A 12 inch gun disposes of half a bale of cotton with every shot fired. A machine gun in operation will use up a bale in three months.

In a naval battle like that of Jutland, from 5,000 to 6,000 pounds a minute are consumed by each active warship.

It takes more than 20,000 bales a year to provide absorbent cotton to staunch the wounds of the injured.

One change of apparel for all the troops now engaged in the war represents more than 1,000,000 bales. Two bales will be required to equip the proposed aeroplane fleet if cotton supplants linen for wings.

The U. S. A. are now turning 1,000,000 bales a year in explosives alone.

HELPED TO SAVE FRUIT CROP

Some 2,000 young women recruited in British Columbia under the auspices of the Y.W.C.A. have proved a factor of very great importance in saving the fruit crop of British Columbia. Despite much suffering from mosquitoes, necessitating frequent relays, the patriotic fruit pickers remained at work, and had it not been for their help a very considerable part of the crop would have been lost.

SYNOPSIS OF CANADIAN NORTH- WEST LAND REGULATIONS.

The whole of Canada, or any part
over 16 years, who was at the com-
mencement of the present war, and
has since continued to be, a British subject
or a subject of an allied or neutral country,
may homestead a quarter section of
available Dominion Land in Manitoba,
Saskatchewan or Alberta. Applicant must
be at least 16 years of age, and must be
a citizen or subject of the Dominion, or
an alien who has been naturalized in
accordance with the laws of the Dominion.

In certain districts a homesteader may
secure an adjoining quarter-section as
pre-emption. Price \$100 per acre. Duties
—Headed six months in each of three
years after entering homesteaded patent and
cultivate 50 acres or more. May obtain pre-
emption patent as soon as homestead
patent on certain conditions.

As soon as obtaining homesteaded
patent, if he cannot secure a pre-emption
patent, he may take a purchased homestead in cer-
tain districts. Price \$100 per acre. Must
reside six months in each of three years
cultivate 50 acres and erect a house
worth \$200.

Holders of entries may obtain title of
employment as farm labourers in Canada
during 1917, on residence duties under
certain conditions.

When Dominion Lands are advertised
or posted for entry, returned soldiers who
have served overseas and have been hon-
ourably discharged, receive one day pri-
ority in applying for entry at the Agents'
Office (but not Sub-Agents). The Agents'
papers must be presented to Agent.

"KINDNESS"

By Minnie White, of Greenshields.

The dictionary has a great many
meanings for the word, kindness, but
I think the nicest meanings are
kind feeling, tenderness, gentleness
and sympathy. My own meaning is
doing to someone else what you
would have them do to you. There
are many different ways a person
can be kind. When a person does
some act of kindness it makes the
other feel as happy as the receiver.
I think kindness is to dumb ani-
mals is one of the kindest things a
person can do. Many boys have a
mania for treating animals. They
seem to think it is fun. Every animal
has its right to live. God made the
animals and they have as much right
to enjoy their simple, little lives as
we have. I think the old familiar
story of "Daniel Webster and the
Woodchuck" is one of the best il-
lustrations, showing the kindness to
dumb animals, that I know. It tells
how earnestly Daniel pleads for
the liberty of the woodchuck. In the
end the woodchuck is set free on ac-
count of Daniel's tender heart. We
once had a nice, little dog and one
day it went away. The same night it
came home with a lot of cats tied
to its tail. Some people had been
act of cruelty, but we never found
out who it was. If they could have
seen how the dog was trembling
when it arrived home, I am sure they
would never have done that to it
again. Another cruel thing I have
heard of being done is to catch a
coyote and keep it locked up until
it is very weak. Then taking it out
of the box and letting some of the
hounds chase it. The poor coyote is
in such a condition of fear and weak-
ness that the hounds soon catch it
and the poor helpless creature is torn
to pieces in a few minutes. There is
no harm in just having a coyote
chase if the coyote is given a reason-
able chance to get away. I think
there should be a law passed to pro-
tect the animals from such cruel
treatment. We often see horses with
their tails docked, but the torture and
pain it is causing them is unbearable.
Their tails are the only thing they
have to brush off dirt and keep them-
selves cool with. If their tails are cut
it is marring the work of God. Every-
thing was made for a reason and
things should be left the same way
as at first. If we are kind to the
animals we will also be kind to the
little birds. Some boys and girls
delight in wounding the birds with
stones. Very few birds do any harm.
Some of the larger birds such as
the hawks and crows may be de-
structive at some times. But the robins,
wrens, sparrows, grey birds, and
the "farmers" for all they eat, by eat-
ing the grubs and insects, they help
the crops. What would this world
be like if we didn't have these lar-
val singers to cheer us up.

Another good way of acting out
the meaning of kindness is by being
kind to strangers. It seems to me
that the stranger feel at home when they
go into a strange place, and some-
one goes up to them and welcomes
them. If a family of people come to
your place some dark night and ask
if they could stay all night, what
would you say? What would you
want to be said to you if you were
in those people's places. I know of
a family which was in the very same
circumstances. It was a very dark
night and these people were strangers
in that part of the country. They
came from a house where they
went towards it when they knocked
at the door a kind looking woman
answered it. At first when she one
the man asked her if she could give them
a bed for the night, she hesitated.
But when she saw the tired look on
the mother's and children's faces,
she consented readily. This kind heart-
ed lady gave this family their supper
that night, good beds and their break-
fast next morning. The father asked
how much she owed them, but the
dear lady would not think of taking
a cent for all her work. This would
seem only a small act of kindness
to some people, but to this family it
meant a great deal. This would be
a good place to think of the golden
rule, "Do unto others as would that
they should do unto you."

I think it is very nice to have
kindness of friends among other
people. It seems to make the fami-
lies so much more friendly. I once
read a story about very rich people
and there were a great many people
who acted like friends to their faces
but enemies to their backs. These
rich people later lost all their money
in business. After they lost their

money, the people who had been so
kind to the friends with whom they
never came near them. This does not
show true kindness, because any one
who is a true friend will be a friend
no matter what happens.

I think it is nice to see an old
boy or girl doing a kind act to a
small child. Everyone of us are
small and helpless once in our lives.
A country school is the place where
an older child learn to be kind to
the small ones, because there are all
sizes and ages of girls and boys.
Some boys and girls when they get
a little larger than the other child-
ren, think they can make them do
anything they want them to, some-
times the things the big children try
to make them do are wrong. Such a
boy or girl gets the name of a
bully. The old story of keeping cats
and dogs on one of these trips did
a good illustration. There was once a
little boy who found a bird's nest.
The bird was new. He knew what boy
had taken it, so he threatened to punish
him, but he walked away, he was the
best way of the best way to punish him
and he met another boy. He asked
this other boy, what would be the
best way to punish a boy who stole
anything from him. The boy told
him, when he asked, was a nice boy and
was always thinking kind thoughts
so he said, "I know how to punish
him, we shall heap coals of fire on
his head." The other boy thought
this was a splendid idea, so he asked
"How can we do this?" so he kind boy
told him: "We will say all the
kindest things we can, to him. These
words will mean as much to him as
if we really heaped coals on his head,"
so they did. If everybody did this
there would not be so many quarrels.

It is not only the older people
who should be kind to the small
children, but there are lots of ways
for small children to be kind to
their elders in return. The story of
"Somebody's Mother," shows how
kind a younger boy or girl can be
to an elderly person. This dear old
lady wanted to cross the street, but
there were so many carriages, and
the street was so slippery, that she
was afraid to venture out. Her car-
riage would call. There was a large
crowd of school boys just out of
school coming up the street. One of
the boys noticed this lady. He told
her he would help her across the
street. After he returned to the group
of boys, he told them that he had
somebody's mother; and that he hoped
some boy would help his mother
across the street, if she should stand
at a crossing. There is no need to
explain how grateful this lady felt
to this dear lad who had been so kind
to her. I think we should be more
kind to other people because they
have been kind to us so long. One
of the commandments in the Bible
is, "Honor thy Father and thy Mother."
And God surely knows.

It is not only the children who
should be kind to older folks, but
the older folks should be kind to
the children. When the Father and
Mother mistreat their children, they
deserve to be punished. God gave
them their dear ones, to be kind and
gentle to. I do not see how people
can treat their own dear children
everybody should be kind to their
children in their lives. In the book
named "The Lampbrush," the old man
was very kind to this little girl.
Gerty didn't know of any of her
relatives. She was all alone in the
world. The woman who she worked for
was so cruel; she used to beat Gerty.
The old man was a landlady, and
one night by night as he came to light
the lamp in front of the place, where
Gerty stayed, Gerty learned what
a kind, old man he was. One night
old True as this man's name was
found Gerty in tears. He found out
that the woman, Gerty stayed with
had been treating her very cruelly.
So old old Truman took Gerty with
him to his home. Truman treated
Gerty as if she was his own daughter.
Gerty had found a good friend.
When Gerty grew to be a young woman
she found her father. This made her
so happy that all her grown up
days were filled with sunshine and
happiness, while the first seven or
eight years were filled with sorrow,
and tears. There is an old expression
of, "Smile and the world smiles with
you, frown and the world frowns at
you." Nearly every person who keeps
smiling, is kind.

Now we see clearly that in order to
be happy we must be kind. Kindness
is a good personal motto. Why not

let us all be kind to dumb animals,
to strangers, to friends and to the
children. Why not let us all try to
be as happy, kind and pleasant as
we can, in the future. It is just as
easy to be kind as it is to be un-
kind.

MINNIE WHITE

The above essay was written in a
competition, headed by the W. E. C. T. U.
of Wainwright. The essay re-
produced was the first prize.

Mrs. Harriette Even, of New York
who has just completed a trip by the
Grand Trunk Pacific steamship and
rail lines, from Seattle to Alaska and
from Prince Rupert to Winnipeg,
writes as follows:

"I have travelled quite a little in
Europe and quite extensively in the
United States, having visited Yellow-
stone Park, Yosemite, Grand Canyon
in Arizona, Honolulu, Newfoundland,
Bernuda, up and down the Pacific
and Atlantic oceans, through the Pan-
ama Canal from New York to Frisco,
and not on one of these trips did I
see such wonderful scenery, either
by rail or boat."
"The state-rooms on the steamer
"Prince George" are all out-dated
rooms, with cold water, and cold
water-baths when desired, good, and
excellent service, and everyone con-
nected with the steamer is unusually
courteous and solicitous of one's com-
fort. As regards meals and service,
the same thing can be said in con-
nection with the Grand Trunk Pacific
railway, and not only are the meals
excellent but very reasonable when
compared with those of other
travels over which I have travelled
this summer on my way out to Seat-
tle."

NOTICE

To all whom it may concern
My wife, having left my bed and
board, I, Orion Limpert, do hereby
give notice that I shall no longer
be held liable for any debts what-
soever contracted by my wife, Mrs.
O. Limpert.
O. LIMPET, Wainwright

MAIL CONTRACT

Sealed Tenders address to the
Postmaster General, will be received
at Ottawa until noon, on Friday,
the 26th September, 1918, for the con-
veyance of His Majesty's Mails, on
proposed contract for four years,
twice per week on the route, Doley
and Edgerton Station, from the 1st
January, 1919 next.

Printed notices containing further
information as to conditions of pro-
posed contract may be seen and blank
forms of Tender may be obtained at
the post offices of Doley and Edgerton
station, and at the office of the
Post Office Inspector.

A. W. CAIRNS.

Post Office Inspector's Office,
Edmonton, August 16, 1918.

Persons cutting hay on the follow-
ing lands without permission will be
prosecuted: N. W. 1/4 13; N. E. 1/4 23
Section 25, 26, west 1/4 section 3, 10,
45, range 6, west fourth. Permits if
available can be secured by applying
to T. Torgerson, Wainwright. Per-
son having cut hay this season on
the above land will save themselves
trouble by immediately reporting the
amount cut. 43-304

Most Heat from Fuel

One reason why the
Kootenay Range gives
the most use of the heat
generated from the fuel,
is that the grates have
ample vents to make
perfect combustion in
the firebox, which is
properly and scientific-
ally proportioned ac-
cording to the needs of
the range.

Loose Leaf Ledger Systems

THE STAR has just recently put in a stock of this up-to-date system of keeping books. The system can be had in different sizes and in different bindings. We have in stock at present two sizes in cloth and leather bindings. They are completely indexed with leather index tips and are put up in the very best way.

Shows Accounts In Moments Notice

With this system you enter your accounts in one book only. For the small business or the large business. Keeps track of your buying as well as selling. Saves hours of time and is the most accurate system on the market.

New Leaves Can Be added at any time

And the binding once bought will last you for many years. The statement leaves can be inserted at any time and we can print your name and business on each statement. Saves bothering with small statements and always gives you a record of every man's account.

Come in and Examine The Binders

We can furnish any size ledger, and bindings for duplicates. No loss through lost accounts. Complete account of buying and selling at finger's tips. No going through half a dozen books to find what a man owes.

No Extension of Amnesty Date To Deserters

Ottawa, Sept. 2.—There is to be no extension of the date of amnesty to deserters. "It is not possible," reads an official announcement, "to extend the delay fixed for general amnesty to defaulters under the Military Service Act. All, however, should be urged to report voluntarily and promptly. Those whom it will be necessary to bring in compulsory must be rigorously dealt with. Those promptly reporting will have every consideration given to reasons for delay and to circumstances which may excuse it."

An official statement showing how far advantage has been taken of the amnesty will be issued shortly. So far, it has not been possible to compile complete figures owing to the rush of men to come in during the last few days. It is expected that final returns will show a heavy reduction in the percentage of defaulters under the act.

TRACTORS STILL AVAILABLE

Farmers May Secure Them Through Provincial Departments of Agriculture

Following the resale to Canadian farmers, at cost, of the first 200 Fordson tractors purchased from the manufacturers, the Canada Food Board has completed arrangements with the Henry Ford and Son Company, Inc. to continue to furnish tractors at cost for the use of Canadian farmers. Farmers who wish to secure such tractors should place their order with their provincial department of agriculture and until further notice such orders will be handled in the same way as formerly.

LAKE OF MYSTERY

Portland, Ore., Aug. 31.—A lake known as the great sunken lake, is reported to be the deepest lake in the whole country, and perhaps in the whole world.

Located in the valley of the Cascade mountains, about seventy miles north of Jacksonville, Ore., is the lake which is about fifteen miles long and four miles wide, is so deep that its depth cannot be measured.

It is situated so far below the crest of the mountains that winds cannot reach it, and its surface is like a sheet of glass. It is sometimes called the "Lake of Mystery."

TO TELL FOWL'S AGE

There are many signs by which with some accuracy the age of birds may be determined, but it is very easy to be deceived if one does not know the real age of the bird. One method that seems to be about the most accurate test is the wing test. By this like the rings on a cow's horns one has some record in nature's way of the number of molts a bird has made. It will be found that between the sets of primary and secondary feathers that there is or are one or more real small wing feathers each of which represents a year. This is just as true of the male as the female and affords a means of detecting the old ones if no record of knowledge of ages is available.

It may seem good to recommend keeping all females and help produce larger numbers, but we believe less loss to all will be caused by working more economically and conditions for producing more will thereby be made easier and be more likely carried out. Half the number with twice the advantage will frequently produce more than twice the number with half the attention or available material for encouraging production.

By considering this matter before the molting season and using or killing the birds before they lose in flesh much available meat will be saved and made use of than after the birds have used the food necessary to molt them or are sold when they are spare and poor on account of the necessary drain on their constitutions.

KILL OFF "BOARDING" HENS

At least ten per cent of the hens in Alberta are mere boarders, was the statement made recently by an agricultural school professor recently. He advised that non-producers should be disposed of.

PRODUCING MORE CHEESE

Mr. J. A. Ruddick, dairy and cold storage commissioner for Canada, in a survey of the cheese situation, points out that the British Ministry of Food through the Dairy Producers Commission, has purchased Canada's entire exportable surplus of cheese this season.

Just before the war the production of cheese in this country reached the lowest point since 1914, but, stimulated by high prices, there has been a substantial increase during the past three years. Due to greater production and conservation in home consumption exports of cheese from Canada in 1917 were greater by 37,000,000 pounds than the 1914 exports.

Mr. Ruddick continues as follows in part: "The output in Manitoba and Alberta is increasing and takes the place of what was formerly shipped from Ontario. The manufacture of cheese in the western provinces will not be large enough however, to affect materially the situation for some years to come, as the tendency is to make butter rather than cheese. The west is now in a position to supply its own needs in butter, shut out the large quantity that formerly came from New Zealand and have a surplus for export."

"The cheese producers of Canada are really in a very fortunate position under the extraordinary conditions which prevail. They are so because cheese is considered essential as a food both for the army in France and for the civil population in the United Kingdom, and because of our favorable position in regard to shipping as compared with New Zealand and other sources of supply of any consequence. The Imperial Ministry of Food realizes that in order to ensure full production they must pay a good price. These are encouraging features of the situation which ensure good prices for the future."

LIVESTOCK POSSIBILITIES

In an address at the opening of the Edmonton Exhibition, Mr. D. D. McGee, director of agricultural labor of the Canada Food Board, emphasizes the unsurpassed live stock

"With barley and oats for feed and the roughage which can be grown in the stock abundance in Northern Alberta I venture to say that nowhere on the American continent can better or cheaper beef be procured. Have we not proved that Western Canada can breed and feed on the produce of our own farms, animals that can compete successfully with the corn-fed animals that they breed in the south?" he said.

LETTERS to the EDITOR

Edmonton, Aug. 30.
To the Editor Star:

Dear Sir,—If you will kindly allow me space in your valuable paper I would like to ask the party or parties to prove their statements which were embodied in a complaint laid with the public health department, Edmonton, against me, relative to the treatment and care of my father, who has been indisposed.

I assert that their statements are absolutely untrue and groundless. The motive of such a complaint is inhuman unless it is directed for the purpose of combating the approaching municipal election.

I would further advise that "those parties" be in possession of more logical and specific information from which to base their attacks, before taking any such steps.

Thanking you, Mr. Editor, I am,
Respectfully yours,
JAMES TAYLOR

LOCAL PARAGRAPHS

Mrs. W. B. Crowford is spending a few days in town.

Mrs. Frank Mott and son returned home from Saskatoon.

Blanche Schuffner was visiting with Edith Bowen last week.

Mr. M. Peterson and Frank Mott were visitors to town.

Messrs. Clifton Webb and Jack Crowther of Edmonton spent the holiday with Mr. and Mrs. Mitchell.

Miss Mary Fish has returned from a visit spent with her grandfather at Ramsey, Alberta.

Mr. and Mrs. J. W. Brown and family are in Edmonton, spending a week's vacation there.

Miss McAllister is back again on the teaching staff, after spending her vacation in the city and at the coast.

The regular monthly meeting of the Red Cross Society will be held in the council chambers on Friday, at three o'clock. All members requested to be present.

Postmaster Macleod made an auto trip to Hardisty on Tuesday, where he will meet his brother, who will accompany him back on his return. Mr. Macleod will visit here for a week or so.

Edward Shepherd, from the Natural Resources Department, C. P. R., Calgary, is visiting his uncle, George Wanless, for a week, and is incidentally enjoying himself while here with trying his luck at duck hunting.

The regular meeting of Adaline Rebekah lodge will be held in their lodge room on Thursday of this week. A full attendance of members and officers is requested as degree practice will be held.

ANGLICANS HELD SUCCESSFUL PICNIC AT CLEAR LAKE

The Church of England picnic was held at Clear Lake Wednesday, 28th. The day was not as favorable for picnic purposes as the might wish, yet a large number availed themselves of the day's outing and had an enjoyable time.

Several of the Heath people drove over in motors and joined the picnic party among whom we noticed Mr. and Mrs. Fred Ford, Mr. Bert Ford, Miss Grace Hunt, Mr. and Mrs. Macleod and party of Heath, Mrs. Withnell and Miss Withnell, Mr. Tom Wilkinson and party, Mr. and Mrs. Sweetmika, Miss Harkness, Mr. and Mrs. Roberts, Mrs. Goulding, etc.

Refreshments were in abundance, and Mrs. Lassell, Mrs. Pauline, Mrs. Jones, Miss MacNeill, Miss Denny ably assisted by Mr. F. Jones, looked after the comfort of the children and visitors.

Sports were engaged in under the able guidance of Mr. F. Jones. Several boating and bathing parties were formed, while the children thoroughly enjoyed the paddling in the clear waters of the lake.

A very pleasing feature was the public presentation to Miss Denny of an address and a handsome piece of jewelry.

The following was the address:

"The Sunday school and the congregation of St. Thomas church, Wainwright, have long thought that the time has come, when some little gift upon their part should mark the high appreciation and the esteem in which they hold you."

Your self-denying work in Sunday school, church and the parish generally, has been not alone, a splendid example, but likewise an inspiration. We therefore ask you to accept this small gift from us, which, while it is no way a time measure of our esteem, will yet, we trust, go so little way to show you that your good work is not forgotten by us.

Signed on behalf of the Sunday school and congregation.

Adeline O. Lassell, superintendent;
H. C. Mann, people's church warden;
Henry Wilson, M.A., vicar. August

Albert Girard is home on six weeks' leave.

G. L. Morrow, of Edmonton was a visitor in town on Tuesday.

Mr. and Mrs. McNeil are visiting friends at Prince Rupert.

Miss Palma Wiggles, Edmonton, spent the week end with Mrs. P. E. Ross.

W. E. Simpson, who has been spending a short vacation at Lethbridge, returned Sunday afternoon.

Mrs. Ed. Davis returned from a two months' visit to her mother in Winnipeg.

Mrs. Fred Small and daughter Gerlie returned Sunday from a visit to the former's sister, Mrs. N. T. Fenby of Biggar.

The much needed room for the post office is being prepared in the shape of an addition at the rear of the building. The floor space will be nearly doubled.

Dr. J. W. MacQueen and Mrs. MacQueen have given up their residence here and left for Calgary this week. Dr. MacQueen recently sold out his dental business to Dr. H. H. Lockwood.

Mr. and Mrs. A. E. Mills are returning this week from an extended visit at Banff. They will motor back. The U. F. W. A. have postponed their sale of home cooking and farm produce, until September 7th, on account of bad weather.

Mr. and Mrs. H. A. Helcher and son, of Sigourney, Iowa, Mr. J. J. Fish, Big Valley, and Mrs. Fish, of Ramsey, Alberta, have been the guests of Mr. and Mrs. F. Fish for the past week. Mr. and Mrs. Helcher left for their home in the States on Wednesday.

24th, 1918."

I wish to return my thanks to all without any distinction, who so readily gave their help at our church of England picnic last week.

Were I to specialize in any way, it would be to those who were not members of the church of England. They may rest assured that their kindness was much appreciated.

Henry Wilson,
St. Thomas Vicarage.

Edgerton To Have Library

The Edgerton Pharmacy have opened up a new department in their store this week. They will put in a large stock of the latest fiction and conduct a circulating library. Each person getting a book will receive a card and the number of the book, when received and when returned will be kept track of.

The firm will put in about 500 books to start with and will add about 250 new ones each month. The books will be high class fiction, the latest editions, and will give the people of Edgerton an opportunity to get the best reading at the lowest cost.

COAL

WE WANT TO TALK TO YOU ABOUT YOUR COAL SUPPLIES For Next Fall, AND WINTER

Owing to the large demand there will be for WESTERN COAL this year, it is advisable that you get your supply ordered and feel sure that you will be able to get it when needed. If you place your order with us now we will not only guarantee to fill your bins before the cold weather starts but

WE ALSO GUARANTEE TO KEEP YOU SUPPLIED AT ALL TIMES NEXT WINTER WHICH IS A GREAT DEAL MORE TO THE POINT

We are the only coal dealers in Wainwright who had coal at all times last winter and WHEN OTHER COAL DEALERS COULD NOT GET COAL we supplied their customers. The Coal outlook at present points to a scarcity such as we have not known in years, so that we cannot promise to do this next winter but **WE WILL HAVE COAL TO SUPPLY OUR OWN CUSTOMERS AT ALL TIMES.**

We can do this because we are agents for Three of the most reliable and Best Coal Mines in the west:

HUMBERSTONE TWIN CITY; PEMBINA
All Equal in Grade, all at the same price

We have Dry Tamarac in Stove Wood Lengths 2 1/2
Let us have your order now. We will deliver when you want it.

LUMBER

We have Seasoned Lumber of all kinds; Douglas Fir, Coast Cedar, B. C. Spruce. If you need strong lumber come in and see our 10x12 Inch Boards and Full Sized Dimension.

IMPERIAL LUMBER CO., LTD.

MRS. WILCOX FALL MILLINERY OPENING SEPT. 16

Mrs. Wilcox will reopen her millinery parlors and be ready with the fall millinery display on September 16th. Great attention will be paid to repairs and remodeling.

THE G. T. P. ENTERS WEYBURN

Effective Sunday, September 1st the fall change in time on the Grand Trunk Pacific railway goes into effect.

In addition to various local changes throughout the system, the company announce the opening of their branch line from Talmage to Weyburn on the Regina-Norfolk branch. Commencing Tuesday, Septe-

mber 3, tri-weekly service will be operated between Regina and Weyburn, leaving Regina at 6.00 p.m. on Tuesdays, Thursdays and Saturdays, arriving Weyburn 10.00 p.m. Returning trains leave Weyburn 8 a.m. Tuesdays, Thursdays and Saturdays arriving at Regina at 12 noon.

The time of trains has also changed on the branch through here. Train from the north will arrive at 1.15 and train from the east at 5.45.

PROOF POSITIVE

Judge—The complaint against you is that you deserted your wife. Prisoner—I ain't a deserter, Judge! I'm a refugee. Look at this black eye.
